which enlists for four years young men of good character and sound physical condition between the ages of 17 and 25 as apprentices—seamen; opportunities for advancement; pay \$16 to \$70 a month. Electricians, machinists, blacksmiths, cooper-smiths, yeomen (clerks), carpenters, ship-fitters, firemen, musicians, cooks, etc., enlisted in special ratings with suitable pay.

hospitals, apprentices 18 to 25 years. Retirement on three-fourths pay and allowances after 20 years service; applicants must be American citizens; \$16 worth of clothing free to recruits. Upon discharge travel allowance 4 cents per mile to place of enlistment. Bonus four months pay and \$125 per month increase in pay upon re-enlistment within four months of discharge; \$5 per month increase on second enlistment, \$1 per month increase on third enlistment, whether service is continuous or not.

U. S. NAVY RECRUITING STATIONS: Room 2, Pioneer Building, Denver, Colo. Room 53 Bank Bldg., Colo. Spgs., Colo.

**His Fame Imperishable.**  
Kansas will not raise a monument to the memory of John Brown, but his soul goes marching right on.

**Isn't It the Truth?**  
The surest and quickest way to bring on a panic is to commence yelling hard times and neglect your work.

**It's Different in Chicago.**  
The Chicago Journal asks: "Clothes or politics for women?" Well—here in Colorado both are permitted.

**Frightfully Poor.**  
The German Emperor's little daughter is credited with this incident. She was tired of all the old games, so said to her playmates:

"I know what we'll do. Let's play at being quite poor people—frightfully poor people, who have only one or two footmen!"

**Wouldn't Show Dirt.**  
Bacon—I wonder why they always make these paper napkins out of white paper?

Egbert—What else would they use? "Why, brown paper, of course! See how much longer they would last!"—Yonkers Statesman.

**Still Doubtful.**  
Patience—You know it is said that one-half the world doesn't know how the other half live.

Patrice—Don't they, now that the pure food laws are in force, don't you suppose?—Yonkers Statesman.

**Final Sweep.**  
Merchant—Yes, we are in need of a janitor. Where were you employed last?

Applicant—In a bank.

Merchant—Did you clean it out?

Applicant—No, sir. The cashier did that.

**A COLORADO INDUSTRY.**

**Wonderful Growth of a Large Manufacturing Plant at Denver, Colorado.**

It would be interesting to know what percentage of the population of the western states knows that in Denver is a manufacturing concern devoted to the needs of the great army of working people in the big broad West. Certainly it would be a very large proportion, for the Underhill Manufacturing Company sends its goods broadcast over the whole Rocky mountain and Pacific region, from Mexico to Canada.

While on a casual tour of inspection through the factory, one sees in the shipping room bundles marked for towns in Colorado, Utah, Wyoming, Idaho, Montana, Oregon, Nevada, Arizona and other states. For the sign

**Underhill**

which is stamped on every finished product leaving the factory is evidence that the goods are first-class in quality and reasonable in price.

It was in 1892, during the hard panic year, that the Underhill Manufacturing Company first undertook to carry out a big idea on a small capital. This idea was in effect to make working garments superior in quality and more economical in price than those turned out by eastern concerns, and

stood for practical patriotism, since it meant that at a time when Colorado seemed to be down and out from the results of the panic, this concern had the courage and audacity to invest capital in a business that would employ home labor and keep the money of the state in the West where it was so sorely needed.

The idea was a big, courageous one, and under the management of Mr. Charles Bayly, who, with his brother, owns the controlling interest, its execution has been a credit and a pride to the state. Better goods are made nowhere, and the company meets competition without fear. There have been many obstacles to overcome in building up from a small beginning so large a concern, but one thing they have been met and removed. For Charles Bayly, a quiet, keen-eyed, rather silent young man of unusual force, has proved an exceedingly competent "power behind the throne." Every detail of the business comes under his eye and is supervised by him personally.

What this means to Colorado and the West may be estimated when it is remembered that the Underhill Manufacturing Company employs three hundred persons with a payroll of about three thousand dollars a week. More than \$150,000 is paid in wages during the year and is kept in Colorado instead of being sent to the East.

Every cent of this goes to union employees, for the working force compose an entire lodge of the United Garment Workers. This implies, and it is a fact, that the goods are made under the most favorable conditions in a well-heated, well-lighted and well-ventilated factory where good sanitary conditions are rigorously observed. There is thus no danger of lurking infection in the clothes, as is often the case in sweat shop goods.

The product is limited to a line of working men's goods—overalls, shirts, corduroy trousers and khaki suits, all of which are guaranteed against any defect in material or workmanship.

All dealers handling these goods are instructed to replace any garment found unsatisfactory and the very rare instances of this kind prove conclusively that the Underhill goods supply the requirements of the most exacting working man. The popular 75c bib overall of this concern has perhaps the largest sale of any one overall made.

The output of this factory is very large, a carload of denim alone being used every fifteen days in supplying the demand. The shops are a very hive of industry and with marvelous rapidity forty-eight pairs of overalls are cut out at once, two seams are sewed at once, buttonholes made and buttons sewed on, all by the latest improved machinery.

These are some of the reasons why the term "practical patriotism" has been used to describe this business and why Colorado should loyally support it, for it is so loyally helping to support her.

**HOWARD E. BURTON, Assayer and Chemist.**

Specimen prices: Gold, silver, lead, \$1; gold, silver, 75c; gold, 50c; silver, 25c. Cyanide test. Mailing envelopes and full price list sent on application. Control and umpire work solicited. Leadville, Colo. Reference, Carbonate National Bank.

**DR. W. G. LYONS**

DENTIST

228 CORONADO BUILDING, Fifteenth and Stout Sts., Denver, Colo.

**VALUE OF FRUIT SOUPS.**

Food Value in Dainty Dishes That May Be Served.

Mr. Riley M. Fletcher Berry, in his book, "Fruit Recipes" (Doubleday, Page & Co.), says that fruit soups are usually served cold—where convenient, chilled on ice—in very small china or glass bowls or bouillon cups.

With this daintiness of service, however, it may be forgotten or not realized that such soups are not to the stomach mere empty, introductory flourishes, whatever the intent. Fruit soups are foods, and as such are used in many countries by even the peasants, though they may lack delicate table appointments. It is true that a fruit may be used which it not of itself substantial (though the opposite may hold, as with prunes), but the

sago, arrowroot, or tapioca used for thickening furnishes a certain amount of heat-producing material, and where wine is added this is increased, so it may readily be understood why, when used in quantity, such combinations may approach, of themselves, substantial meals, or why, even in small measure, fruit soups, with but slight additions of foods containing other balancing elements, may arrive at the right to be chief "dish" of a luncheon or light supper.

As a general rule, stewed fruit, passed through a sieve, may have added to it an equal quantity of water, and to each pint a heaping teaspoonful or scant dessert spoonful of sago, arrowroot (for which cornstarch may be substituted) or tapioca. Some instructors give the rule of a level tablespoonful of cornstarch to each pint of clear, pressed fruit juice, which, however, may be slightly diluted. The arrowroot or cornstarch is a quicker process, and should be dissolved till smooth in a little cold water, added when the fruit juice is at boiling point, then cooked till clear; meantime adding sugar, and later a tablespoonful of lemon juice or wine. If sago or tapioca is used, it must be cooked till thoroughly tender and translucent. A soup made of raspberries may serve as example of a lighter fruit soup. Several recipes for fruit soups and much information valuable to the housekeeper are also given.

**THE HOT WATER BAG.**

Simple Precautions That Will Preserve Its Usefulness.

Boiling water should never be put into a rubber bag. Do not much more than half fill the bag, then place it in the lap before putting in the stopper, and carefully press out the steam.

This makes the bag softer, as it is relieved of the pressure the steam makes if left in it.

After using the bag drain out the water, let it hang bottom up for a little while, then take it down and with the mouth blow a little air into it, just enough to keep the inside from coming together, as it will often do if there is no air in it, in which case the bag is almost sure to be ruined in pulling it apart.

If the bag ever should stick, put into it some hot water with a few drops of ammonia, let it remain a few minutes, then with a thin, dull-edged stick, try to separate the inside carefully.

Never fold a bag after it has once been used. A flannel bag covering for the rubber bag is very useful.

**Care of Shoes.**

An excellent preservative of shoe leather is vaseline. If a small quantity be applied to new shoes it will soften the leather, and if enameled leather, will keep it soft much longer than ordinarily and render it less liable to crack.

If worn shoes are cleaned and blackened, and then rubbed with the vaseline, their appearance and wearing qualities will be much improved.

Have a box of oats handy and when the shoes are taken off remove all mud and dirt, lace or button them, fill half full with oats and stuff the tops with crumpled paper.

When necessary to wear the shoes empty them and they will be found to have kept their shape, and will not be drawn if they were in the least damp when taken off.

**A Word for Bachelors.**

Very well, if bachelors are to be taxed they will be entitled to make a charge when they "fill in" at dinners, act as groomsman and get up subscription dances. Let them just try to tax bachelors and see how society will get on without them.—Kansas City Times.

**Had Domesticated Sloths.**

Dr. Hauthal, a German savant, has put forward a startling theory concerning the remains of gigantic sloths related to the great magatherium and the mylodon, recently found in Patagonia. In his opinion, these animals, whose race is now extinct, were kept in a domesticated state by the prehistoric Patagonians.

**Lemons**

Which have dried and hardened again will become quite soft if allowed to soak in cold water.

**TIRED BACKS.**

The kidneys have a great work to do in keeping the blood pure. When they get out of order it causes backache, headaches, dizziness, languor and distressing urinary troubles.

Keep the kidneys well and all these sufferings will be saved you. Mrs. S. A. Moore, proprietor of a restaurant at Waterville, Mo., says: "Before using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the loins and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills are wonderful."

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

**WOMAN HAS FINE RECORD.**

**Keeper of Lighthouse, She Has Saved Eighteen Lives.**

Ida Lewis recently celebrated her fiftieth year as keeper of the Lime Island lighthouse in the harbor of Newport, R. I. As a girl and woman Ida Lewis has lived a remarkable life. Her bravery and skill in handling a boat are well known and her fame is secure as the great woman life saver in the world, for she has the credit of having saved no less than 18 lives, most of her rescues having been effected in the face of extreme danger and in winter. As keeper of the Lime Island lighthouse, to which post she was appointed in recognition of her bravery and record as a life saver on the death of her father, Miss Lewis has shown herself as careful and efficient as a man could be. She is one of the few women in such a position.

**SLEEP BROKEN BY ITCHING.**

**Eczema Covered Whole Body for a Year—No Relief Until Cuticura Remedies Prove a Success.**

"For a year I have had what they call eczema. I had an itching all over my body, and when I would retire for the night it would keep me awake half the night, and the more I would scratch, the more it would itch. I tried all kinds of remedies, but could get no relief."

"I used one cake of Cuticura Soap, one box of Cuticura, and two vials of Cuticura Resolvent Pills, which cost me a dollar and twenty-five cents in all, and am very glad I tried them, for I was completely cured. Walter W. Paglusch, 207 N. Robey St., Chicago, Ill., Oct. 8 and 16, 1906."

**Queer Idea of Chinese.**

The following is a quite modern Chinese conception of the foreigners' treatment of infectious cases: "If an epidemic broke out two foreigners took the sick away and put them in a little room, washed them with lime water and then locked them up, so that no one could see them, on purpose that they might soon die and not propagate the disease. Wives and children might cry and weep, but the foreigner would not drive them away with sticks, for until dead no one must see those faces again. Better for all of us to jump into the sea than submit to this."—South China Post.

**Beware of Ointments for Catarrh that Contain Mercury.**

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.

**Parisian Champions Barmaids.**

The Paris Matin says, apropos of the proposal to abolish the British barmaid: "One must have lived through a dull winter's night on the shores of the Thames; one must have looked in the laughing eyes of some waitress for a reflection of the absent blue sky, in order to understand all the horror of the proposal to replace charming barmaids by men."

**Important to Mothers.**

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Bears the Signature of *Wm. H. Chase*

In Use For Over 30 Years. The Kind You Have Always Bought.

**Misfortune Followed Him.**

One man, a teacher who was in San Francisco at the time of the disaster in that city, went to Jamaica and entered into partnership at a good private school at Kingston, which was destroyed by the earthquake on the first day of his new enterprise.

Friendship is the only thing in the world concerning the usefulness of which all mankind are agreed.—Cicero.

## HONEST MEDICINE

**TRY DR. WILLIAMS' PINK PILLS FOR STOMACH TROUBLE.**

Convincing Evidence Supported by a Guarantee That Must Convince The Most Skeptical.

Dr. Williams' Pink Pills are a doctor's prescription, used by an eminent practitioner, and for nearly a generation known as a reliable household remedy throughout the United States. Needless to say, no advertised medicine could retain popular favor for so long a period without having great merit and it is the invaluable curative properties of the pills that have made them a standard remedy in every civilized country in the world.

Added to this is the absolute guarantee that the pills contain no harmful drug, opiate, narcotic or stimulant. A recent evidence of their efficacy is found in the statement of Mrs. N. B. Whitley, of Boxley, Ark., who says:

"I had suffered for a good many years from stomach trouble. For a long time I was subject to bad spells of faintness and lack of breath accompanied by an indescribable feeling that seemed to start in my stomach. Whenever I was a little run-down or over-tired, these spells would come on. They occurred frequently but did not last very long."

"I was confined to my bed for ten weeks one time and the doctor pronounced my trouble chronic inflammation of the stomach and bowels. Since that time I have been subject to the fainting spells and at other times to fluttering of the heart and a feeling as though I was smothering. My general health was very bad and I was weak and trembling."

"I had seen Dr. Williams' Pink Pills mentioned in the newspapers and decided to try them. When I began taking the pills I was so run-down in strength that I could hardly do any housework. Now I could walk ten miles if necessary. Both my husband and myself think Dr. Williams' Pink Pills the best medicine made and we always recommend the pills to our friends."

Dr. Williams' Pink Pills actually make new blood and give strength and tone to every part of the body. They have cured serious disorders of the blood and nerves, such as rheumatism, sciatica, anemia, nervousness, headaches, partial paralysis, locomotor ataxia, St. Vitus' dance and many forms of weakness in either sex. They are sold by all druggists or will be sent, postpaid, on receipt of price, 50 cents per box, six boxes for \$2.50, by the Dr. Williams Medicine Company, Schenectady, N. Y.

**Judging People.**

We are all inclined to judge of others as we find them. Our estimate of a character always depends much on the manner in which that character affects our own interests and passions. We find it difficult to think well of those by whom we are thwarted or depressed; and we are ready to admit every excuse for the vices of those who are useful or agreeable to us. That is, we believe, one of those illusions to which the whole human race is subject, and which experience and reflection can only partially remove.—McCaulay.

**Garfield Tea, the Mild Laxative,** is a pure, practical household remedy; good for young and old. To be taken for constipation, indigestion, sick-headache, colds and diseases arising from impure blood. It clears the complexion.

**Increase in Savings Deposits.**

In 1906 the resources of the savings banks of the state of New York reached \$1,465,000,000, an increase of \$59,000,000 in only one year.

**Mrs. Winslow's Soothing Syrup.** For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

When a tall man is broke that's the long and short of it.

**DODD'S KIDNEY PILLS**

CURES RHEUMATISM, BRIGHT'S DISEASE, DIABETES, BACKACHE, GRAVEL, NEURALGIA, MIGRAINE, ETC.

For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

When a tall man is broke that's the long and short of it.

**MICA**

**Axle Grease**

takes miles off the road, and weight from the load. Helps the team and pays the teamster.

Practically destroys friction. Saves half the wear that comes from jolting over rough roads, and lengthens the life of a heavy vehicle more than any other one thing.

Ask the dealer for Mica Axle Grease.

**STANDARD OIL COMPANY**

Manufactured in America
